Shut down the node - AFF A800 1

Shut down the node - AFF A800

After completing the NVE or NSE tasks, you need to complete the shutdown of the impaired node.

Steps

1. If the impaired node isn't at the LOADER prompt:

*If the impaired node displays…	Then…*
`Waiting for giveback...`	Press Ctrl-C, and then respond `y` when prompted.
System prompt or password prompt (enter system password)	Take over or halt the impaired node: • For an HA pair, take over the impaired node from the healthy node: `storage failover takeover -ofnode impaired_node_name` When the impaired node shows Waiting for giveback…, press Ctrl-C, and then respond `y`.

2. From the LOADER prompt, enter: `printenv` to capture all boot environmental variables. Save the output to your log file.

This command may not work if the boot device is corrupted or non-functional.
